### २.३.१ students' centric methods for enhancing learning experiences

#### Kriyasharir Department

The Teaching-learning activities are made effective through illustration and special lectures. Curriculum – syllabus are taught through PowerPoint presentations, videos, traditional black board method to make learning interesting.

**Lecture method:** This conventional method is commonly adopted by the faculties. This method facilitates the teacher to interpret, explain and revise the content of a text-only for better understanding of the subject by the learners.

**Interactive method:** The faculty members make learning interactive with students by motivating student participation in group discussion, role-play, subject quiz, news analysis, discussion, and questions and answers on current affairs. Departments provide an effective platform for students to develop the latest skills, knowledge, attitude, values to shape their behaviour in the correct manner. The department conducts innovative programs which stimulate the creative ability of students and provide them a platform to nurture their problem-solving skills and ensure participative learning. The department Implements student-centric methods of enhancing the lifelong learning skills of students. Faculty members make efforts in making the learning activity more interactive by adopting student-centric methods.

In addition to the traditional teaching-learning methods, the institute is providing innovative student-centric methods such as Workshops, Seminars, Virtual Lab, Simulation, Roleplay, Review web literature, Video, Demonstration, Activity-based learning, Guest lecture, Google Classroom, Project-based learning, Worksheets, PPT, Journal Review, Research projects, Language games, Viva, Poster presentation, Public Speaking to encourage Participative, Problem-solving and Experiential learning.

#### १. Experimental Learning

Students are engaged in various activities like project making to enhance the skills.

Projects, charts, models are prepared by students.

## DEPARTMENT OF AGADTANTRA

### 2.3.1 *Student-centric methods are used for enhancing learning experiences by:*

- Experiential learning
- Integrated/interdisciplinary learning
- Participatory learning
- Problem solving methodologies
- Self-directed learning
- Patient-centric and Evidence-Based Learning
- Learning in the Humanities
- Project-based learning
- Role play

Under student centric methods we conduct the **Students Seminar** in the classrooms accordingly various topics are allotted them for the same randomly (Participatory, self-directed learning), **Court visits** are arranged for every batch at district court solapur so that students can observe the court procedure practically, **Observation of Autopsies, departmental visits** are arranged at VM medical college, solapur and **Visit to police training center** to study firearm weapon (Experiential, Integrated and Evidence based learning ), **group discussion and Quiz** (Participatory learning), **Compilation on one topic** (Project based learning), Ayur expo for learning in humanities etc. Due to these activities student get practical knowledge which became helpful for their theory and practical examinations. These activities helps student to update their knowledge, develops communication skills and enhance their confidence level.

### 2.3.3 *Teachers use ICT-enabled tools for effective teaching and learning process including online e-resources*

We use power point presentation to educate students by which they can see the exact **pictures of poisons, specific signs of poisons, images of injuries, death signs, autopsy appearance etc.** Tabulated information and images helps students to understand the topic easily. We also uses the videos of snake bite treatment, stomach wash, MTP procedures , hemodialysis, peritoneal dialysis etc. for easy understanding. We also use **google classroom app** to convey various images, updated information and news related to forensic medicine and medical jurisprudence subject.

*Yemok*  
I/C. Principal  
Seth Govindji Raoji Ayurved  
Mahavidyalaya, Solapur.

**2.3.5 The teaching learning process of the institution nurtures creativity, analytical skills and innovation among students--** Describe the process by providing examples to illustrate the development of creativity, analytical skills and innovation among students

We teach the poisons with reference to their general description, mechanism of action, active principle, signs and symptoms, treatment, specific antidote with their dose and route of administration, differential diagnosis so that student can identify poisonous plant, can diagnose poisoning case and do treatment of patient of poisoning. We teach the students various forensic medicine topics and postmortem examination in detail with practical observation of P.M. so that student can do postmortem examination properly. We teach students various topics of medical jurisprudence like consent, medical negligence, medical record, medical certificate, professional misconduct and secrecy, various acts which helps student during their practice.
