2.6.3 The teaching learning and assessment processes of the Institution are aligned with the stated learning outcomes.

Response:

The teaching learning and assessment is processed by achieving the target of all domains of learning in the form of Cognitive, Affective and Psychomotor. These domains are assessed at college level in respective departments during scheduled Internal Assessment Programme.

At university level summative assessment is done.

Assessment is done through by conducting Theory and Practical examination.

In assessment student is assessed by making him to identify the spots, writing a topic, viva voce, assignments and verification of his records.

Different teaching learning activities is used to assess the student.

Passing grade are as per the assessment criteria of Council and University norms.

Students when completes the courses are confident enough to start their own Clinics with all the expertise skills needed to be good physician.

Programme outcomes, course outcomes for all the courses is displayed at department level and assessment is carried out at timely internal assessment and doubts are solved, individual support for slow learners are provided.

Details of program outcome and course outcome are introduced during the Transitional Curriculum program.
