

Details of activities towards maintenance of quality, details of training content, frequency of training, skill development programs of therapists

- Swab culture of Major & Minor OT as well as labor room is carried out every month for the sterilization purpose.

We follow SOP'S of all the Ayurvedic procedures

Training

- OT management training is carried to all OT assistants and flying squads, every 6 months.
 - Training for improvement of surgical skills,
 - practicing various suturing techniques Cu-T insertion on dummy models
- **SOPs of development, implementation, monitoring and revision of SOPs**
(SOPs of various Ayurvedic procedures are attached in another PDF file)
 - **Activities towards improvement of clinical documentation.**
 - We maintain both hard copy as well as soft copy of all the details of OPD patients.
 - Monthly record of IPD patients and OT procedures are maintained and checked.
 - We also keep record of Ayurvedic sthanik chikitsa procedures like yonidhavan, yoni pichu , pratisaran, uttarbasti etc both in hard copy as well as soft copy
 - Everyday new ANC patients are registered and a record is maintained in hard as well as soft copy.

- **8.1.13 Describe the activities undertaken by the institution towards practice of various procedure related to Prasuti and streeroga.**

In the department of prautitanta and streeroga we carry out different procedures like Yonipichu dharana, Yonidhavan, Matrabasti to cure diseases like shwetapradar, karniniyoni vyapada, prastransini yonivyapad etc.

These local ayurvedic procedures are carried out by post graduate students as they are trained to carry out these procedures.

We also treat infertility and tubal blockage cases through Pachkarma followed by Utttarbasri and have seen remarkable results in such cases. We also follow sutika paricharya by applying yonidhavan and Yonidhupan procedures in the indoor patients.

We try to implement more classical ways of treating the diseases and trying to make new ayurvedic treatment protocols.

We motivate sutikas to follow the paricharyas as per classics at the time of discharge. We also educate garbhinis about garbhini ahara and vihara paricharya, by taking garbhasanskara classes.

We do pre conceptional counseling, explain patients about masanumasik ahar paricharya, yoga and pranayama during ante natal period.

Educate *garbhinis* about events in normal labor by giving them demonstrations using models and PPTS. We conduct various camps for garbhnis like Hb, Garbhini ahar Education, Ante natal care in COVID etc. Besides following the maximum ayurvedic line of treatment and following paricharyas we conduct normal deliveries and caesarean section.

We also carry out departmental presentations and discussions of various cases for postgraduate students
