Teacher Feedback on Curricula/ Syllabus

Feedback Analysis Academic Year-2018-19

| Sl. No. | Parameters  | Number of Response (1) | Number of Positive Response (2) | Percentage of Response % (3) |
|---------|---|------------------------|---------------------------------|------------------------------|
| 1       | The topic is pertinent to the program   | 32                     | 29                              | 90%                          |
| 2       | The number of hours for lectures, tutorials, and practicals is sufficient for this course   | 32                     | 29                              | 90%                          |
| 3       | Course objectives are clearly stated and met  | 32                     | 29                              | 90%                          |
| 4       | The syllabus covers modern breakthroughs and technical advances   | 32                     | 29                              | 90%                          |
| 5       | There are enough reading materials and online sites that are pertinent.   | 32                     | 29                              | 90%                          |
| 6       | Students' curiosity and creative thinking are sparked by the curriculum's material  | 32                     | 29                              | 90%                          |
| 7       | A syllabus that is sufficient to provide conceptual knowledge and connect theory to practical applications                                | 32                     | 29                              | 90%                          |
| 8       | The course evaluation system is well-designed   | 32                     | 29                              | 90%                          |
| 9       | The program curriculum benefits students' career progression and lifelong learning by facilitating inter- and multidisciplinary learning. | 32                     | 29                              | 90%                          |
| 10      | Give precise suggestions for additions or deletions in the syllabus   | 32                     | 29                              | 90%                          |
